HYBRID SMOKE ALARM
THE ALL-IN-ONE SMOKE ALARM FOR EVERY INSTALLATION SCENARIO

Finally, one smoke alarm that can be hardwired, battery-powered, interconnected or stand-alone – no need to purchase separate alarms for different installs.

The built-in 10-year battery can be the primary power source or the backup power source when installed using the 240V hardwired option.

Use emerald's Hybrid Smoke Alarm as a stand-alone alarm or interconnected - either wirelessly with the addition of the RF module (sold separately) or hardwired connection.

The alarm is fitted with a test/hush button to facilitate testing of the alarm. The hush function also allows the alarm and alarm system to be silenced in the case of a triggered alarm.

Network RF compatibility with the Vulcan 240V, Ranger RF modules and the emerald Smoke Alarm Controller.
